PROFILE

I am an enthusiastic and eager to learn recent graduate who is now looking to extend my knowledge and experience.
I have studied Bsc Computer Science at Aberystwyth University, where I received a 2.1 in my degree scheme. I have strong competency in Android, Java, C/C++, Unity and HTML from university and my own personal experiences (some of which are available in my portfolio - see link above). I am always looking for to further challenge myself because of my strong passion for programming.

EXPERIENCE

Finance Assistant (P/T)
SRT Consultings & Associates Ltd (As & when required)
Sep 2017 – present

LONDON, United Kingdom
- A Level Computer Science: Grade B.
- A Level Mathematics: Grade B.
- A Level Physics: Grade D.
- AS Level Art: Grade C.

GCSEs
Dunraven Secondary School
Sep 2010 – Jun 2015
LONDON, United Kingdom
- 13 A*-C including A* in Mathematics

INTERESTS

Guitar | VR (Virtual Reality) | Drawing

Cross-stitching | Gaming

Programming

ACHIEVEMENTS & CURRENT GOALS

UKIEPC Competitions
Achievement
I participated as part of a team from Aberystwyth University in the UKIEPC. UKIEPC is a programming competition with teams from each university competing to complete programming challenges correctly in the shortest amount of time.

Built my own PC
Achievement
I built my own PC by purchasing the individual components such as; CPU, motherboard, PSU, PC case, RAM, GPU, etc... And combining these individual pieces of hardware to create a fully functional PC.
British Sign Language (BSL)
Achievement
I have a Level 1 certificate in British Sign Language for completing a BSL course at Aberystwyth University.

Improving Typing Speed
Goal
I am currently improving my typing speed by using the website https://www.keybr.com/ 🔗 .

Making Unity Games
Goal
I am currently improving upon my C#/C++ skills more by developing Unity games through tutorials and my own experiments. A current experimental game I am making is a 'tycoon' game where the user can grow a floating island by purchasing blocks and can earn gold by performing tasks on the island.

STRENGTHS

GitHub/GitLabs | Passionate

Android Studio | Firebase

Teamwork | Attention to Detail

Oral & Written Communications

Committed to Life-Long Learning

Agile Methodology | Unity
